Superior Craftsmanship.
Remarkable Service.

NEW FEATURE COLORS

TFL DOORS

THERMALLY FUSED LAMINATE

Whether your customers are residential, commercial, or institutional, thermally fused laminate (TFL) products provide the contemporary appearance they'll love and the versatility you need. Of course, our TFL products are always backed by legendary Valley Custom Door™ customer service, giving you technical expertise, product details, and unique insight.

Appearance of realistic and beautiful wood grain patterns and textures.

Flexibility in design that matches your building needs.

Price options that help you hit the project's budget.
