

Valley Custom Door™

Superior Craftsmanship.
Remarkable Service.

**CUSTOM CABINET DOORS
DRAWER FRONTS & COMPONENTS**

CUSTOM YOU CAN COUNT ON.

Quality craftsmanship and a long tradition of excellent customer care are what you can expect from Valley Custom Door. With over six decades of experience in the industry and thousands of combinations to choose from, we take pride in our ability to adapt and meet the changing needs of our customers.

Whether your order is for one or one thousand doors, you can be assured that our high standard of quality, service, and on-time delivery applies. Each product you see here may be ordered in any wood species, using a combination of the many profiles and finish choices we offer. Special order wood species and custom stain matching are also available...just ask!

"Valley continues to provide a quality product and superior customer service, which is vital to our business."

COPE & STICK

PINLESS TECHNIQUE. UTMOST QUALITY.

Cope and stick joinery produces a great look for cabinet door frames, and pinless construction is standard on all doors and drawer fronts. "Stick" is the molded edge cut along the frame's inside edge. Any piece that meets that molding must match the profile by being "coped." This subtle technique replaces the typical round-over profile with a clean and square corner. The tenon on Valley Custom Door cope and stick doors and drawer fronts is 5/8" long and provides the strongest joint available.

MITERED

CLEAN LINES. UNIQUE DESIGNS.

For a level of sophistication, mitered doors and drawer fronts are an ideal option. All mitered joints from Valley Custom Door are constructed using a blind mortise and tenon that is 3/8" thick by 1/2" deep. The width of the mortise and tenon can vary depending on the frame width of the door or drawer front. Mitered cabinet doors and drawer fronts also allow for a variety of frame profiles. Open frames for glass or mullions are available in all mitered door styles as well.

APPLIED MOULDING

RAISE THE BAR WITH HAND CRAFTED APPLIED MOULDING

Take your custom cabinetry to a higher level with expertly crafted applied moulding doors and drawer fronts from Valley Custom Door. Add elegance, show a decorative flair and create a distinctive look. By adding decorative moulding to flush doors, you can give your doors and drawer fronts depth and dimensionality. Applied moulding gives you creative flexibility while adding beauty and character to your cabinets.

HDF & HDF MULLION

SEAMLESS JOINTS AND QUALITY YOU CAN COUNT ON.

HDF doors, drawer fronts and mullions are an economical alternative to solid wood for your painted cabinetry. A composite material made of recycled wood fibers plus resin, high density fiberboard (HDF) is produced in dense sheets, making it able to withstand heat and humidity changes better than solid wood. An HDF core is extremely stable and consistent, and it's also free of any voids.

TFL & VENEER

CONTEMPORARY AND FRESH STYLE WITH OPTIONS.

For those who want a more modern and contemporary look, thermally fused laminate (TFL) and veneer doors and drawer fronts from Valley Custom Door are ideal options. Your customer's preferences and décor inspire us to create unique doors to match their style, and to customize further. Our veneered doors and drawer fronts feature an MDF core door with veneer on the front and back sides with real wood veneer banded edges.

QUARTER CIRCLE & SOLID WOOD SLAB

MAKE A STATEMENT WITH QUALITY CONSTRUCTED DESIGNS.

Quarter circle doors are a nice solution for stand-alone cabinets or a way to add a centerpiece to cabinetry. They bring elegant curves and variety to classic cabinetry. Wood slab doors and drawer fronts are solid, flat options offering clean lines, making them perfect for transitional and contemporary designs. Both options showcase the quality and craftsmanship Valley Custom Door applies to each and every piece that leaves our facility.

DOVETAIL CONSTRUCTION FOR STRENGTH, STYLE AND DURABILITY.

Drawer boxes from Valley Custom Door are custom, solid wood boxes that are the highest quality you'll find. Our 5/8" drawer boxes are built to your size specifications and may be ordered either assembled or unassembled, finished (clear coat) or unfinished, with or without bottoms. You can customize all our boxes further by selecting the wood species of your choice. Enhance any cabinetry project with quality options in drawer boxes from Valley Custom Door.

REFACING

A FRESH NEW LOOK FOR EXISTING CABINETRY.

Valley Custom Door can supply all the products needed for your refacing projects: fluted rails and rosettes, corbels, mouldings, solid wood veneer, turnings and more. Plus, all can be finished to match your needs. When full cabinetry replacement is not an option, count on Valley Custom Door to provide and deliver solutions to make your installations efficient and your projects impressive.
